

Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education (www.cool4ed.org). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected no/low cost and open etextboks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

Overall Comments

If you were to recommend this textbook to colleagues, what merits of the textbook would you highlight?

- Lots of options for technologically literate students to access... Many good features I will be incorporating in my existing classes soon!

What areas of this textbook require improvement in order for it to be used in your courses?

- Organization... it was a bit overwhelming at first, took some time to familiarize myself! Perhaps it is my lack of background with a non-traditional information source (rather than existing textbook).
